

FORMIT TOILET TRAILER

EVEN MORE PORTABLE

Sometimes even a portable toilet isn't mobile enough. If you need to move your portable toilet frequently, why not mount it on a purpose-built trailer?

The Formit Toilet Trailer is a lot more than just a way to transport a portable toilet. It was designed specifically to function as a permanent or semi-permanent mount. Simply park the trailer, and you're done.

Compatible with Formit's Ultra, Executive and PB28 portable toilets, the Toilet Trailer is hot-dipped galvanized for maximum rust-resistance, and RTA rego-ready.
